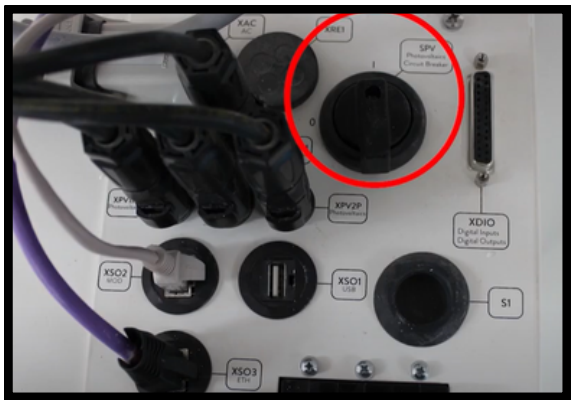
Sonnen Battery Restart Procedure

STEP 01



Locate this panel on the top of your battery and switch this round solar button 90 degrees to the LEFT to turn it OFF.

STEP 02

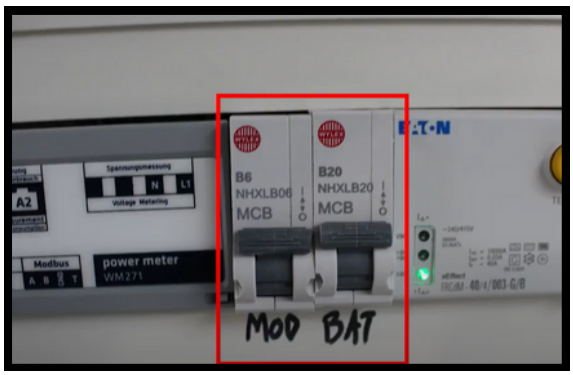
If it hasn't already tripped, flick this F1 switch off

STEP 03

Locate this box above your battery

STEP 04

Flick both of these grey MCB switches on the left down to the off position



STEP 05

Locate the main breaker switch on the right and flick this down to the off position

STEP 05

We can then repeat the whole process but in REVERSE.

STEP 06

Flick the main break switch back ON.

STEP 07

Flick both of these grey MCB switches back ON.

STEP 08

Return to the battery panel and flick the F1 switch back ON.

STEP 09

Lastly, the round solar button 90 degrees to the RIGHT to switch it back on.
